

# I Live For Love

Daniel Johnston

I live for love.  
I live for love.  
And I can hardly wait until Saturday

When I see her because I live for love.  
The moon and the stars they know how I feel

'Cause I live for love.  
I live for love.  
I live for love.  
And I can hardly wait until Saturday

When I see her because I live for love.  
The moon and the stars they know

What I'm thinking of

'Cause I live for love.
