## Life In Vain

## **Daniel Johnston**

Don't wanna be free of hope and I'm at the end of my rope its so tough just to be alive when I feel like the living dead

I'm givin' it up so plain
I'm living my life in vain
and where am I going to??
I gotta really try,
try so hard to get by
and where am I going to??

I don't know where is up or down and there ain't any love left around everybody wearin' a frown waiting for santa to come to town

you're giving it up so plain you're living your lives in vain and where are you going to?? you gotta really try, try so hard to get by and where are you going to??

flip on your TV and try to make sense out of that if we were all in the movies maybe we wouldn't be so bored

we're giving it up so plain we're living our lives in vain and where are we going to?? we gotta really try try so hard to get by and where are we going to?? goodbye goodbye
