

Lost on the Stoop

Daniel Powter

Shed off and peel
I'm in no shape or form
You're just a reject coming down for more
When two are received, you know I could be there
Soon you're laughing, soon you're laughing my way

Your daddy don't get you
He's been a big mess
Soon you're laughing, soon you're laughing my way
You always are in your darkness there are not I will be darknes
s
Soon you're laughing, soon you're laughing your way

When you're lost in the stoop
When you fall out of bounds
You could believe just down
And it's always your fault
You get lost in yourself
You could believe you list stand down
Now I can find you what you know this plans
Now I can find you once you insult the man
Yeah, I like destruction you're washing all down
Yeah, I like destruction talking me wrong

When two are received, you know I could be there
Soon you're laughing, soon you're laughing your way. You died

When you're lost in the stoop
When you like all down, yeah
You could believe just down
And it's always your fault
You get I lost the understood
You could believe you list stand down
Now I can find you what you other plans
Now I can find you once you insult the man
Yeah, I like destruction you're washing all down
Yeah, I like destruction talking me wrong

When your lost in the stoop
When you like all down, yeah
You could believe just down
And it's always your fault
You get I lost the understood, yeah
You think you list stand down
