

# Cause It's Over

Daniel Schuhmacher

I find a place  
For my lonely heart tonight  
Day in day out  
I'm feeling like a lonely child  
But baby when tomorrow comes  
And my lonely dream is gone  
It doesn't have to be this way  
I find out where my heart belongs  
Where my heart belongs

Cause it's over now  
Only want to be with you  
Baby I do all for love  
Breaking heart is hard to do  
Cause it's over now  
Baby don't play games with me  
Even just a fool with you  
Baby there's no sense to be

I won the game  
I love you more than words can say  
Behind the wall  
It doesn't have to be this way  
Couldn't live without your love  
But I can fly on broken wings  
I'm gonna fight for you my love  
I don't know what tomorrow brings

What tomorrow brings  
Cause it's over now  
Only want to be with you  
Baby I do all for love  
Breaking heart is hard to do  
Cause it's over now  
Baby don't play games with me  
Even just a fool with you  
Baby there's no sense to be

Cause it's over now  
Only want to be with you  
Baby I do all for love  
Breaking heart is hard to do  
Cause it's over now  
Baby don't play games with me  
Even just a fool with you  
Baby there's no sense to be

Cause it's over now
