

Ka-Boom!

Dark Lotus

Don't be lookin' to the sky for birds or planes
All you'll find is a dark Lotus spittin' the black rain
Body slammin' each other on clouds makin' electrical sparks,
That can be seen for miles in the depths of the dark,
Till we stomp the clouds with thunderous roars,
That's when balls start flyin' and rain starts to pour
Where you gonna run? From up here we got a clear view
And with electrical bolts, you know we gonna spear you,

I gotta fifteen pound sledge hammer that I bury in the domes of people
In their unlocked homes
Fuck a headache I pop heads like grapes,
And I keep swinging at it till the bed breaks,
I make it boom, I'm always spending bloody money
And if my momma found out how I got it, she wouldn't love me,
It's over quick, I blow the brain matter out your ears,
And leave the bloodiest crime scene the mother fuckers seen in years,

I can make it thunder
Kaboom
Shake the ground
Shake the ground
Shake the ground
Shake the ground

Explosive and I can split the ground,
I'm that crazy mother fucker that just walked in the town,
With a back pack full of C4 in your backpacks full of whack raps
'Cause it's all that your good for,
Push the button,
I dare you go ahead and do it,
I'm fuckin' about to lose it,
It's up to you to step to it,
I blew it up and then I walked away clean,
I wiped the block like a slate not a house on the scene

Don't make me jump up and put Zeus in a headlock
Then stomp my foot and make the earth crack,
Know this, my hatchet blade is sharp as a razor,
And split the spine of many a hater,
When we roll it's deep with six petals,
And bang more heads together than heavy metal,
When my hands hit your neck your gonna feel a grip,
And when I go to hell I'm gonna pimp the devil like a
Bitch

I can make it thunder
Kaboom
Shake the ground
Shake the ground
Shake the ground
Shake the ground
Lotus

Feel the earth shake when my feet penetrate the ground,
The Dark Lotus cipher shaking the clouds
Bringing the thunder down, forget about the scope,

More like a psycho killer,
There ain't no method to my madness,
I only like to murder,
It's cool to see bitches try to run they won't get far,
They just a moving target and we aiming for the heart,
Bullets rain down like spurts from flash floods,
And thirty people lie in pools of their own blood,

Can you see the lights flash when you walk in the dark,
Lotus keeps you on the edge of your seat with their spark,
Everything around's crumbling listen to the sound,
From the center of the earth rumbling, can you feel that?
Every place you look your blinded by a sign,
The thunder's coming stronger and you're about to die,
Hell is dropping faster, rain is burning hot,
And the only thing that you can do is sit back and watch,

I can make it thunder
Kaboom
Shake the ground
Shake the ground
Shake the ground
Shake the ground
(Lotus)

Kaboom
Looks like rain
Looks like rain
Looks like rain
Kaboom
