

# Humanity Defined

Darkane

Blinding your vision, reality shut off  
I control what has always been mine  
Self-contained and contradictory  
Unaware of when I'm crossing the line

The world begins and ends with me  
I'm the center of what's known  
Prevent the ability to see  
Trapped in manipulation zone  
Creating chaos and disorder in your mind  
I have no interest in what's your destiny  
See me complete and divine

Logic discarded, reasoning fails  
No interest if you want to run or stay  
I'll make you believe that you have a choice  
As long as we do it my own way

The world begins and ends with me  
I'm the center of what's known  
Prevent the ability to see  
Trapped in manipulation zone  
Creating chaos and disorder in your mind  
I have no interest in what's your destiny  
See me complete and divine

Blocking your vision  
Turning blind  
The universe is in me  
I'm humanity defined

Deny the truth, the evil within  
All too late, you'll be aware of the signs  
Knowing your guilt while I'm free from sin  
Unaware of when I've crossed the line

The world begins and ends with me  
I'm the center of what's known  
Prevent the ability to see  
Trapped in manipulation zone  
Creating chaos and disorder in your mind  
I have no interest in what's your destiny  
See me complete and divine

Blocking your vision  
Turning blind  
The universe is in me  
I'm humanity defined
