## **Whores' Bleeding Magick**

## **Darkside**

Don't you dare care about this fools Feel only few, just let them die For pity is the vice of kings I want a cruel, dominating youth DEUS EST HOMO

Kicking them down into the dust Bastards This is the law of the strong To do what thou wilt is the call Summon the beast

Nothing exists without the will Destroy the pagans come over them I'll feed you with their flesh Kill and destroy

Salvation lays in virginal flesh Sexual magic, an outpost in space

THELEMA u place of the damned Abbey of the dog. faqced god Magick of utmost chaos

666 u farthest evil revealed Rebirth of the underworld Whores' magic in blood

All the fearful ones
Their flesh is meak
This univers is a big beast
Weeding out times, a millenium
Damnation instead of domestication
You're the chosen ones

Worship the god nameless and blind Worship him with fire and blood Homage him with spears and sword Shed their blood

All things depend one on another Bring damnation to the holy ones I promise salvation for the cruel DEUS EST DAEMON

For the creator
The name amongst nameless
Uttermost evil
The god of all hatred
