

# All Eyes On Me

Darkwater

You watch my every step  
Is this never enough  
How I've been at your feet  
Oh, to satisfy you  
Must I bend til I break

Don't stare, Don't stand so close  
Don't let me catch you touching me  
I know just how it feels  
Almost like someone judging me

If I act on my own will  
How am I to be trusted  
Just you watch, and I'll fail you  
Just turn the lights up on me

All Eyes On Me

Good thing you're still around  
I need you watching over me  
Don't go changing your ways  
I need you to watch my every step

What do you think you know about me  
And my reasons to leave you behind  
This loneliness surely is mine to control  
For once something that's only mine

So stay on your side this time  
Don't come near me again  
Never touch me again  
I don't want you near me

Don't stare, don't stand so close  
Let me believe you're leaving me  
You're still making me feel  
Almost like someone touching me
