

# In My Dreams

Darkwater

I can't believe this  
progression meets the skeptic eye  
Even a child can see it  
how can they be so blind  
Forward I'm reaching  
trying to cope  
Touched by discretion  
is there no hope

close yet so far  
Lead me and you'll see me turn  
Rise all my stars  
Leave me and you'll see me burn

In my dream there'd be nothing  
that I could not do  
In my dreams you would find me  
just as good as you

Trespassing my mind  
a thousand tears I hold inside  
Have I no integrity  
or should I just close my eyes  
forever we've seen this  
power abuse  
I need your help here  
cause what if we lose

Close yet so far  
Leaving me breathless again  
Rise all my stars  
Come and let me fall asleep

In my dreams you would find me  
talking like you do  
In my dreams you would find me  
just as good as you

How long will we believe  
How long will we deceive  
Will you ever confess  
I'm calling the earth to witness

Close not so far  
Follow and I'll show the way  
Rise to the stars  
Let us turn night into day

In my dreams you would find me  
just as good as new  
In my dreams there'd be nothing  
that I could not do  
In my dreams you would find me  
touching like you do  
In my dreams you would find me  
just as good as you
