

# Black Out the Sun

Darren Hayes

No turn off the sun  
Take down the moon  
For I don't need them anymore  
Go switch off the stars  
And paint the sky black  
Love isn't ever coming back  
There is no use in imagining a world without you  
Your love was like a drug I was addicted to

R: Cause there is nobody else who could hurt like you hurt me  
I don't want to be lonely  
And there is no other way  
There's no joy  
There's no meaning  
Just this hollowed out feeling  
Now all the loves gone  
And nothing grows here  
And I just feel wrong so black out the sun  
And all that we shared will slowly disappear  
There's a hole where my soul used to grow  
So just black out the sun

No stop all the rain and poison the ground  
Love doesn't want to hang around  
Go turn all the fruits into bitter wine  
It was only sweet when you were mine  
There is an emptiness inside of me  
Since you been gone  
All the world has lost it's meaning  
All my colors run

R:

And nothing compares  
How could it even dare  
Cause now that love's gone I want to black out the sun

R:
