

Feel Love

Darren Styles

Sometimes I look into your eyes,
Can't help but feel frozen in time
Whether you laugh, whether you cry,
Just wanna hold you tonight

You make me feel love
You make me feel love

Just like a fire, keeping me warm,
In your embrace, you shelter the storm
Whether it's wrong, whether it's right,
Please let me hold you tonight

You make me feel love
You make me feel love
You make me feel love

(I feel love, I feel love)

Sometimes we kiss under the sun
Cant find the words, everything's numb
Nothing is wrong, everything's fine
'Cause im gonna hold you tonight

You make me feel love
You make me feel love
You make me feel love

(I feel love, I feel love)
