Next to You

Darude

```
I've been waiting for a boy like you
I've been dying to get next to you
I've been dancing all night through
I've been trying to get next to you
To get next to you

To get next to you
To get next to you

I've been waiting for a boy like you
I've been dying to get next to you
I've been dancing all night through
I've been trying to get next to you
To get next to you

To get next to you
To get next to you
To get next to you
```
