

# Earth Meets Water

Dash Berlin

Hold me tonight  
What happend to me  
My head in the clouds  
Fallen so deep  
You came in soft  
No shoes on my feet  
Cold and afraid  
It feels like I could break down  
Right here on this shore  
I'll go astray

Here I stand  
Where earth meets water  
The wind blows smoke  
Across the land  
So hear me out  
Our lives get harder  
It slips through our fingers  
Like a fist full of sand  
Like a fist full of sand

Lay down tonight  
The stars as our spine  
Summer will fade  
And it feels like I will lose you  
With each of the turning tide  
Till the first snow arrive

So here I stand  
Where earth meets water  
The wind blows smoke  
Across the land  
So hear me out  
Our lives get harder  
It slips through our fingers  
Like a fist full of sand  
Like a fist full of sand

So hear me out  
Our lives get harder  
It slips through our fingers  
Like a fist full of sand
