## **The Night Time**

## **Dash Berlin**

Time to go
It's time to go
Whatever this means
He's happy it seems

The gentle accent moves me forward With secrets that I know were true

So I'll be a fleeting sound A light-ray out on the water And I'll know his secret name And tell him about the night time

So I'll be a fleeting sound A light-ray out on the water And I'll know his secret name And tell him about the night time

So I'll be a fleeting sound A light-ray out on the water And I'll know his secret name And tell him about the night time

After night
In boundless light
He calls my name
I do the same

After this A simple kiss Return my eyes A true disguise

The gentle accent moves me forward With secrets that I know were true

So I'll be a fleeting sound A light-ray out on the water And I'll know his secret name And tell him about the night time

So I'll be a fleeting sound A light-ray out on the water And I'll know his secret name And tell him about the night time

So I'll be a fleeting sound A light-ray out on the water And I'll know his secret name And tell him about the night time
