

# Somewhere In Time

Dave Alvin

I hear a voice singin' somewhere in time  
A song I knew long ago  
And it takes me back to places somewhere in time  
And everyone I used to know  
I see a face, I remember somewhere in time  
Someone I loved who's gone away

Gone away somewhere in time  
Gone away somewhere in time

Another night on a highway somewhere in time  
The darkness playin' tricks on me  
Far down the road in the shadows somewhere in time  
Am I the man I'm supposed to be?  
And I see a light shinin' somewhere in time  
A lonely light to lead me on

And lead me on somewhere in time  
Lead me on somewhere in time

I wake from a dream, a dream from somewhere in time  
And rub my eyes so I can see  
You're standin' there before me somewhere in time  
Waitin' for me patiently  
And I'll take your hand, someday, somewhere in time  
And forever I'll be here with you

I'll be with you somewhere in time  
I'll be with you somewhere in time  
I'm here with you somewhere in time
