1. I saw a man on the side of the road
With a sign that read
"Will work for food"
I tried to look busy 'til the light turned green

I saw a bear on TV and his friends were all drowning
'Cause their homes were turning to water
A strange kinda sad big old bear
I'm sure he would happily eat me
He'd tear me to pieces that bear

R: Wake up sleepy head I think...

2. Tell me everything will be OK if I just stay on my knees
and keep praying believing in something
Tell me everything is all taken care of
By those qualified to take care of it all

R: Wake up sleepy head I think...

*: One day do you think we'll wake up
In a world on its way to getting better
And if so
Can you tell me

3. I have been thinking that lately the blood is increasing
The tourniquet's not keeping hold in spite of our twisting
Though we would like to believe that we are we are not in control
Though we would love to believe

R: Wake up sleepy head I think...
