

# Whole Lot Of Lonesome

David Allan Coe

You put a whole lot of lonesome in me can't you see  
You gave me a forest then burnt down the trees  
You preached me a sermon until I believed  
Then you put a whole lot of lonesome in me

I just wanted someone to take me  
You took me for all that you could  
My friends all said you'd try to break me from drinkin'  
But I never thought that you would Tammy  
You put a whole lot of lonesome

I bought you that mansion you wanted so much  
But it never quite felt like home  
The dreams that we once shared are shattered in two  
And I've had to go on alone Tammy  
You put a whole lot of lonesome

Yes, I've got a whole lot of lonesome in me
