Dancing Out in Space

Cutting through the water Hands upon the ghost To the city of solid iron Through the kingdom of the boats Send your friend away now Let him sail back home tonight

Something like religion Dancing face to face Something like a drowning Dancing out in space

No-one here can see you Dancing face to face No-one here can beat you Dancing out in space

Silent as Georges Rodenbach Mist and silhouette Girl, you move like water You've got stars upon your head You've got my name and number You've got to take the floor

Something like religion Dancing face to face Something like a drowning Dancing out in space

No-one here can see you Dancing face to face No-one here can beat you Dancing out in space

Dancing face to face Dancing out in space

Dancing face to face Dancing out in space

Dancing face to face Dancing out in space **David Bowie**
