Two by two, they go walking by Hand in hand, they watch me cry [two by two, hand in hand] Lonely nights, I dream you're there Morning sun and you're gone [lonely nights, morning sun] [maybe] I'll do anything you say [maybe] I'll do anything you say [maybe] I'll do anything you say Do anything you say, do anything One desire I ask of you Please be mine, please be mine [one desire, please be mine] Thousand years and I'll return You'll be mine, you'll be mine [thousand years, you'll be mine] [maybe] I'll do anything you say [maybe] I'll do anything you say [maybe] I'll do anything you say Do anything you say, do anything Two by two they're walking by Hand in hand, they watch me cry [two by two, hand in hand] [maybe] I'll do anything you say [maybe] I'll do anything you say [maybe] I'll do anything you say Do anything you say, do anything [maybe] I'll do anything you say [maybe] I'll do anything you say [maybe] I'll do anything you say Do anything you say, do anything you say
