## In The Heat Of The Morning

**David Bowie** 

The blazing sunset in your eyes will tantalize Every man who looks your way I watched them sink before your gaze Seniorita sway Dance with me before their frozen eyes I'm so much in love Like a little soldier catching butterflies No man loved like I love you Wouldn't you like to love me too In the heat of the morning In the shadow I'll clip your wings And I'll tell you I love you In the heat of the morning I'll tie a knot in rainbow's end, organise the breeze Light my candle from the sun I'll give you daylight for a friend I'll do all of these I'll prove that it can be done, oh, I'm so much in love Like the ragged boy who races with the wind No man loved like I love you Wouldn't you like to love me too In the heat of the morning In the shadow I'll clip your wings And I'll tell you I love you In the heat of the morning In the heat of the morning In the shadow I'll clip your wings And I'll tell you I love you In the heat of the morning Oh yeah, all day, all the way Ooh
