

# Telling Lies

David Bowie

Gorgeous girls are bound to meet  
To talk of stars and kings and feet  
Through the chromosomes of space and time  
Me I'm fast like bad infection  
Gasping for my resurrection  
Swear to me in times of war and stress

[CHORUS]

Telling lies, telling lies  
Telling lies, telling lies  
Telling lies  
(Ooh, ah, visionary)  
(Ooh, ah, missionary)  
Telling lies  
(Feels like something's gonna happen this year)  
Telling lies  
(Ooh, ah, visionary)  
(Ooh, ah, missionary)  
Telling lies  
(Feels like something's gonna happen this year)  
Telling lies...

Shadow falls in shrinking smiles  
See me poised at the happy games  
Standing in the mouth of all that's pure  
Come straggling in your tattered remnants  
You'll come to me in tears and rain  
I'm your future,  
I'm tomorrow, I'm the end
