

# Amnesia

David Byrne

Peace on Earth  
Soon we will be  
Where nothing worries us

Lazy days  
Cool is the breeze  
Across the universe

Armies of soldiers are sleeping tonight  
And the moonlight is kissing their eyes

When you awake  
You will be free  
I'll be your lullaby

Alcohol  
No need to fear  
Rest in these fuzzy arms

Ease on down  
Amnesia  
Baby's on Valium

Keep us from danger and safe from all harm  
From the wind, and the rain, and the fire

When you awake  
You will be free  
And I'll be you're lullaby

When you awake  
You will be free  
And I'll be your lullaby.
