

# This Way Please

Dawn Golden

Well I told you once or twice  
That I'm doing fine  
But where are you tonight?  
I love you that is right  
I want you every night

You know you're not above me  
But now you're thininking of me  
You say you think it's really strange

Together we can find  
A better state of mind  
Just open up your eyes  
Beyond your body there lies  
Another day, another way  
For you and me to stay

You know you're not above me  
But now you're thininking of me  
You say you think it's really strange

Together we can find  
A better state of mind  
Just open up your eyes  
Beyond your body there lies  
Another day, another way  
For you and me to stay

Why don't you stand beside me  
You know that would delight me  
And I will help you understand  
This way please, this way please
