

Many have travelled this road  
But few have returned  
Chasing a glory gone  
Or so I've heard  
I heard the whispered stories of fallen men  
But they never seen a thing that strong  
As a mountain oh oh

Gotta make it count, I only got one chance  
(I said that only one chance)  
Filled my head with doubt, they said I'll never win yea yea yea  
But I can can can  
With this rock in my hand hand hand hand  
But I keep keep keep  
Fighting til the end end end

Face the beast with my bare hands  
Tried to break me down with all his strength  
But I got luck and this somewhat chance  
And I saw that need for me to beat the bad

Each win I conquer I look to my father  
To ask him for favor to take down this monster  
All for the honor, it gave me the power  
To do like no other, to say I have conquered

Gotta make it count, I only got one chance  
(I gotta make it count)  
Filled my head with doubt, they said I'll never win yea yea yea  
(Said I never was gon win)  
But I can can can  
With this rock in my hand hand hand hand  
But I keep keep keep  
Fighting til the end end end

Each win I conquer I look to my father  
To ask him for favor to take down this monster  
All for the honor, it gave me the power  
To do like no other, to say I have conquered
