

# In The Middle Of The Night

Daze

Calling, calling, I hear you calling  
Calling, calling, I hear you calling, calling me

Ref:

In the middle of the night I hear you call my name  
Since you came into my life it's never been the same  
In the middle of the night I hear you call my name  
Calling, calling, I hear you calling, calling me

Seems like only yesterday  
I was in a lonely place  
Waiting for the sun to light my rainy days  
Suddenly the sky was blue  
From the moment I met you  
When you smile at me you chase the clouds away (Ohh Yeah)

(Ooooh)  
And when I go to sleep  
(Ooooh)  
I know I won't be dreaming

(ref)  
In the middle of the night I hear you call my name  
Since you came into my life it's never been the same  
In the middle of the night I hear you call my name  
Calling, calling, I hear you calling, calling me

Look at how my life has changed  
A new beginning, turn the page  
Baby don't you know  
I owe it all to you  
And when the night comes around  
I'll be sleeping safe and sound  
Knowing in my heart you're dreaming of me too (Ohh Yeah)

(Ooooh)  
You're everything to me  
(Ooooh)  
It's you that I believe in

(ref)  
In the middle of the night I hear you call my name  
Since you came into my life it's never been the same  
In the middle of the night I hear you call my name  
Calling, calling, I hear you calling, calling me

Calling, calling, I hear you calling  
Calling, calling, I hear you calling, calling me

(Ooooh)  
And when I go to sleep  
(Ooooh)  
I know I won't be dreaming

(repeat until end)  
In the middle of the night I hear you call my name  
Since you came into my life it's never been the same

In the middle of the night I hear you call my name  
Calling, calling, I hear you calling, calling me
