

I need an overdose of life  
My secret to survive  
To get a big kick out of live  
I always go against the tide  
I burn so fast but bright  
And never see the red light

Don't keep your eyes on every step I take  
Don't restrict me in every move I make  
I want to be free  
Just take your hands off me  
I gotta be free  
No-one else can live my life for me

Despite of any consequence  
Whatever makes no sense  
I hold the whole world in my hands  
And when I feel I'm out of sight  
The chemical delights  
Will lead me safely through the night

Don't tell me what I'm supposed to do  
I am the only one who pulls me through  
I want to be free  
Why don't you let me be  
I gotta be free  
Oh, why can't you just see  
I want to be free  
Just take your hands off me  
I gotta be free  
No-one else can live my life for me

Don't steal the air from every breath I take  
I don't give a shit for all the rules I break  
I want to be free  
Why don't you let me be  
I gotta be free  
Oh, why can't you just see  
I want to be free  
Just take your hands off me  
I gotta be free  
No-one else can live my life for me
