## I Made It

## **Dead by April**

Gone are the flames gone are the tears and pain that Burned me that hurt me Some days I could burn me and just still I knew I stood never too far from you

Look at me now, I made it See my hope now, I made it Reaching things now I never thought possible Here I am now, I made it. Here is my life, my true dream

I am not afraid even through the darkest moments i never gave up In my mind what am reaching for a coming closer i do never gave it up (I never gave it up)

Look at me now, I made it See my hope now, I made it Reaching things now I never thought possible Here I am now, I made it Here is my life, my true dream

I felt you in me. (I felt you in me) I saw you in me. (I saw you in me) I never gave up. (I never gave it up)

Look at me now I made it look at me now I made it Here my now I made It look at me now I made it See I have now made it Reaching things now I never thought possible Here I am now, I made it Here is my life, my true dream
