

## Somewhere Far Away

Dead Moon

I don't know what happened  
But somehow I got lost  
They'd showed me all of the pitfalls  
The lines I shouldn't cross  
But I was young and so unstrung  
Living day by day  
If you ever feel you don't want me  
I'll be out there somewhere far away

How much does it matter  
Battles won or lost  
When you add up all of your failures  
How much does success cost  
You and me fell like Portland rain  
Orphans gone astray  
If you ever feel you don't want me  
I'll be out there somewhere far away

How vaguely time remembers  
How slowly we forget  
We all pass through this wilderness  
Never know where we'll be sent  
I don't know all the reasons  
Why you've always held my gaze  
If you ever feel you don't want me  
I'll be out there somewhere far away
