

## Human Duality

### Dead Silence Hides My Cries

Do

We know the sense  
Of our lives  
Or how could it be found

We're enslaved by freedom  
And we wage war for peace  
Dreaming of far Eden  
Staying on our knees

We try to find  
The truth being stuck  
In lies we have  
Created

Betraying for cash  
We start loving  
All the things we  
Have hated

We're enslaved by freedom  
And we wage war for peace  
Dreaming of far Eden  
Staying on our knees

We are the only black demons of this world  
We are the only white angels of this world

We make own graves  
Make own lives

So reach out your hands  
I'll show the way  
Reach out your hands  
I'll show right way

We're enslaved by freedom  
And we wage war for peace  
Dreaming of far Eden  
Staying on our knees
