

## Comes To Tongue

Deadstar Assembly

You said I'm sugar  
You'll taste it  
But it's another

When you're next to me  
I see through you feed  
I'm your selfish thing  
Keep on pulling strings  
And I'll be right there

You want things  
But their so past you  
You see three  
When there's two  
You want me  
When it comes to...  
Tongue, tongue, come, tongue

You feel  
Manipulated  
But that is not enough  
Cause you're so hated
