

Baby Obey Me

Dean Martin

When I say give me love well don't be meager
Gee can't you see that I'm over eager
Oh baby oh baby obey me

And when my lonely arms need a build up
Well get in my arms and keep them filled up
Oh baby oh baby obey me

Facts are facts and I'm mad about your caress
So relax there's only one word for yes
My love just lives for you why be lonely
I want you for my one and only
Oh baby oh baby obey me do

Songs are writ to tell you what the lovers say
And they're a hit when people believe that way
So darling don't be shy don't be gentle
'cause I want you close and continental
Oh baby oh baby obey me
No maybe hey baby you slay me
Oh baby obey me do
