

## It Looks Like Love

Dean Martin

It looks like love  
It feels like love  
And I confess it's got me rocking on my heels like love  
How else can I account for that unexpected glow  
That turns the night to day each time we say hello

It looks like love  
Ah it could be love  
But if it's not it's so darn wonderful it should be love  
There's a lot more I can tell you but you take my breath away  
Yes it looks like love is here to stay

It looks like love  
It could be love  
But if it's not it's so darn wonderful it should be love  
There's a lot more I can tell you but you take my breath away  
Yes it looks like love  
Is here to stay
