

Pride

Dean Martin

(My heart tells me stay but my pride tells me go)
I know you're doing lots of things that ain't right
You're out with a different crowd almost every night
You're making me look like a crazy fool
Why do I have these doubts about leaving you
My heart tells me stay and my pride tells me go
But how can I leave you when I love you so
Which way should I turn I'd sure like to know
My heart tells me stay but my pride tells me go
I'd be much better off to get you off of my mind
And make you a mem'ry that I'd like to leave behind
I know that misery's all you'll put me through
Why do I have these doubts about leaving you
My heart tells me stay...
