

The Sneaky Little Side of Me

Dean Martin

There's a sneaky little side of me the kind I want to set you free

So I can go see what's waitin' just over the hill

Every now and then I hear something whisper in my ear

Telling me somebody else could give me a thrill

Oh the sneaky little side of me the kind I want to go and see

And I could be happier walking with somebody new

But every time I start to go something in my heart says no

And tells me how lucky I am belongin' to you

And this sneaky little side of me is learning fast

Bout the way I'm livin' and the love I'm givin'

And the love that couldn't last

When you meet me at the door each night

And put your arms around me tight

I know that there just couldn't be anyone sweeter than you

Suddenly to my surprise I begun to realize

That the sneaky little side of me is in love with you too

Oh suddenly to my surprise I begun to realize

That the sneaky little side of me is in love with you too

(Sneaky little side of me the sneaky little side of me

Sneaky little side of me the sneaky little side of me)
