Think About Me

Dean Martin

Think about me whenever you're lonely
Think about me whenever you're blue
Think about me when you have heartaches
Think about me thinking bout you
In the evening when the sun sets and blue shadows fall
All through the starry night till another day calls
I'll be a waitin' for eternity waitin' for you to return to me
(Think about me) when you have heartaches
(Think about me) thinking bout you
(Think about me)
