Trinity Fields

Deathstars

Here he comes as you pray Like shot lambs you crawl Here he comes as you pray Oh, shot lambs now fall

Hear him breathe as you pray His tongue licks your palms Feel him seduce when you pray There's oralsex in his psalms

All the seeds
That you have planted
Upon trinity fields
And those crops that thrive
Inside of you
Grow like thorns
Through your praying hands

Hear him scream as you pray
The cold father and sin
Feel his soft and sick tongue
Lick your christian skin

There's a ruin in the heart of this plain A rose that withers and dies So leave the fields and join the insects Join the lord of flies
