

# Heavy Duty/Defenders Of The Faith

Debauchery

I know you like it hot  
Love to writhe and sweat  
You think that this feels good  
You ain't felt nothin' yet

Red-hot licks in the palm of my hand  
Feel your body quake  
As we hit the promised land  
I'm heavy duty

We'll rise inside ya till the power splits your head  
We're gonna rock ya till your metal hunger's fed

Let's all join forces  
Rule with iron hand  
And prove to all the world  
Metal rules the land  
We're heavy duty  
So come on let's tell the world

We are defenders of the faith
