

## Five Minute Murder

Deep Insight

Have you ever been to jail?  
Did they ever make you bleed?  
I have never been together with someone who always lies  
And tries to cover up the bull  
Now I'm full  
In misery I pay to say good bye to you, my love

Tonight I will be gone  
Save your lines for the firing squad  
In time we'll forget

I have never been to me  
I have sung my songs for the righteous souls  
There are only so many days we got  
My heart bleed for you  
Now will you ever set things straight?  
The truth shall set you free  
It's always me talking the blame, my love

So go,  
I never said good bye  
You never told me the reasons why  
I'm no longer yours  
Tonight, tonight I will be gone  
Save those lines for the firing squad  
In time we'll forget

So go,  
Good bye to you my love  
You never told me the reasons why  
I'm no longer yours  
Tonight, tonight I will be gone  
Save those lines for the firing squad  
In time we'll forget
