

Raging Storm

Deep Insight

I nearly drowned last night in the pool
And how did I get these tattoos?
Now every day I wear a different noose
And every day I'm taking it out on you

I can't wait for you to call
This town is a drag and It's getting cold
I'm in a raging storm
Nobody told me the way it goes
I gave you my name but I'm never home
I'm in a raging storm

One
To the other side
I open the door into the other side

I was born again in a motel room
I got so close to the flame with you
Now every day I wear a different noose
And every day I'm taking it out on you

I can't wait for you to call
This town is a drag and It's getting cold
I'm in a raging storm
Nobody told me the way it goes
I gave you my name but I'm never home
I'm in a raging storm

One
To the otherside
I open the door into the otherside

I can't wait for you to call
This town is a drag and It's getting cold
I'm in a raging storm
Nobody told me the way it goes
I gave you my name but I'm never home
I'm in a raging storm
