You try
Try to be me
Look at all the things
I see

So take away A life today And be the one

Touch
Touch all you can
Try to be a better man
Hold away
Another day

Ill be, I'll be, I'll be, I'll be and I

I do
Let me hold you
Take it all away
Another hand won't stay

Oh just take my hand And don't be afraid Spread a little love Spread a little love Spread a little love Spread a little love

Take my hand Lose yourself Don't be afraid Let me be

I know I would
What I would do
Take it all away
I all want to be is you
No time for
Take it all away

All I ever want is you
All I ever need is you
I do
Just take it all away
Live another day
All you need to be
It's all you need to be
