Entombed

Deftones

From the day you arrived I've remained by your side In chains, entombed.
Placed inside, safe and sound Shapes and colors are all I see.

On the day you arrived
I became your device
To name and soothe.
Placed inside, safe and sound
Shades and colors are all I see
Shapes of colors are all I feel.

From the day you arrive
I've stay by your side.
Placed inside, safe and sound
Shades of colors are all I see
Shapes of colors are all I feel

Placed inside, safe inside Shades of colors are all I see Safe inside
