## **Romantic Dreams**

I process You're a constant changing phases I watch them Releasing right on cue... In time, in sync Tonight the stage is yours So why wait to discover your dreams? Now here's your chance I promise To watch and raise your babies In time, in sync

Tonight the stage is yours I'm hypnotized by your name I wish this night would never end

So why wait for the colors to bleed? What do you expect?

So heartless we march into the fumes In time, in sync Tonight the stage is yours

I'm hypnotized by your name I wish this night would never end I wish this night

I wish this night would never end I wish this night
