

Aglow Like Honey

Delays

Daylights wasting and the trees are turning
Shops are closing and the world is burning down
So maybe you should come and waste it with me

So shake a leg, the lights are turning red
Everythings been said
And close your eyes
I don't think I could wait until tomorrow
We've all night
But I don't think I could wait until tomorrow

Leaving loaded, you're aglow like honey
These people and all their money can't buy sweetness
You should come and spend it with me

So shake a leg, the lights are turning red
Everythings been said
And close your eyes
I don't think I could wait until tomorrow
We've all night
But I don't think I could wait until tomorrow
Tomorrow

But lets seek the tree before we skip a beat
Falling on defeat
Shake a leg, the lights are turning red
Everythings been said
And close your eyes
I don't think I could wait until tomorrow
We've all night
But I don't think I could wait until tomorrow
