

# Touched

Delerium

You are my angel and I believe that you were sent from above  
Showing me guidance with unconditional love  
And I know that it's true

You are my best friend, I can't believe that you came into my life  
Giving me strength and I feel so safe in your arms  
I will come to no harm

Every time you go away, I will follow you  
When you're running scared  
and you hide away  
I'm right beside you  
I am there  
I have never been touched like this by another  
Or moved or kissed or loved by my lover  
Like you love me

You are my angel and I thank god that you came into my life  
You are one thing I see when I close my eyes  
I'm in the dark of the night

You take me down and bring me back again (x2)  
Take me down
