Touched

Delerium

You are my best friend, I can't believe that you came into my l ife

Giving me strength and I feel so safe in your arms I will come to no harm

Every time you go away, I will follow you
When you're running scared
and you hide away
I'm right beside you
I am there
I have never been touched like this by another
Or moved or kissed or loved by my lover
Like you love me

You are my angel and I thank god that you came into my life You are one thing I see when I close my eyes I'm in the dark of the night

You take me down and bring me back again (x2) Take me down
