

Metropolitan Death 2

Delorean

You were looking for a job
And you found a job
And everybody knows you're miserable now
You were looking for some fun
You started to go to clubs
And everybody knows you're miserable now

You're already a sell out
You got your body for sale
And we all know you're miserable yeah
You're already a sell out
You got your body for sale
And We all know you're miserable yeah

See the death of your fake moves

You got your money-like life
And it all seemed to be alright
You got your money-like life
And it all comes to be no life
Fighth the city back and bring it now to life
