

Anal Wonderland

Demented Are Go!

Wearing flowers in her hair
She's got flip flops on her feet
You look really funky baby
You look really neat
Hair flowing down your back
You've got crystals in your eyes
Now it's time to funk it baby
It's time to fantasise
Anal, anal wonderland

A daisy chain around your neck
Which crowns a luscious breast
Different from the other girls
When you wear that latex dress
Stroke my blade up and down your thigh
As i look into your eyes
Now it's time to funk it baby
It's time to fantasise
Anal, anal wonderland

Sit beneath the apple tree
i'll smell your scented skin
I love that mole on your cheek
I love that dimpled chin
As i tie your hands behind your back
You do not make a sound
Put my hands inside your head
And pull your panties down
Anal, anal wonderland
