

No More Hell on Earth

Demon

Last night I went to sleep
And dreamed the strangest dream
I was a prisoner in a land I'd never seen
The heat was so unbearable
The day was black as night
And I heard my children's children screaming

You left it all to us
The oceans and the skies
You let it all decay
Before your very eyes
The judge and jury they have sentenced you to life
But that's not long enough
Cause life has passed you by

No more hell on earth
You left us with your broken promises
No more hell on earth
There's no time to change it all
No more hell on earth
You left us with your broken promises
No more hell on earth
There's no time to change it all, to change it

Out in the distance
I could hear a lost soul's cry
Waiting for relief to come
Left alone out on the wire
I saw the face of God
In a cradle as a child
He held the cross within his hands
A sword was in his side

He came a second time
But still was crucified
You never did believe
The one called Jesus Christ
You called yourself a Christian
But what about your faith?
You built your temples of desire
Upon the sacred place

No more hell on earth
You left us with your broken promises
No more hell on earth
There's no time to change it all
No more hell on earth
You left us with your broken promises
No more hell on earth
There's no time to change it all, to change it

A shelter in an underground
Strange symbols on the wall
A rat infested sewer
Like some relic from the war
You left it all to us, you left it all to us
These are the corridors of power

Where forever you shall walk

I searched the wastelands till
I found someone I knew
Then I finally realized
The nightmare had come true
The place where I was standing
Was the place where I was born
And my name was on the roll of honour
To the fallen of the third world war

You left it all to us
The oceans and the skies
You let it all decay
Before your very eyes
The judge and jury they have sentenced you to life
But that's not long enough
Cause life has passed you by

No more hell on earth
You left us with your broken promises
No more hell on earth
There's no time to change it all
No more hell on earth
You left us with your broken promises
No more hell on earth
There's no time to change it all, to change it
