

Glass Hearts

Desert Rose Band

Can't you see through this heart of mine
I want it to be right this time
Glass hearts will break
'Cause they're made of sand

I handled her so carefully
Love so fragile can't you see
Glass hearts will break
'Cause they're made of sand

I just can't leave well enough alone
Can we make it can we make it
I don't want to be the shattered one
Is she thinking of another one

Two people walking down the avenue
She needs him he needs her too
I got to find my own true love ways
I don't want to walk a one way walk
I don't want to talk a one way talk
I want to live through the sand hand in hand

Only love can set you free
I opened up so she can see
My glass heart will break
'Cause it's made of sand

I just can't leave well enough alone
Can we make it can we make it
I don't want to be the shattered one
Is she thinking of another one

I don't want to set my soul on fire
Caught up in this wild desire
My glass heart will break
'Cause it's made of sand
My glass heart will break
'Cause it's made of sand
My glass heart will break
'Cause it's made of sand
