

Nothing Dies

Desultory

Peel away the skin that hurts
Peel away the skin that burns

Turn away from all you know
Turn away to save your soul

Peel away the skin that's cold
Peel away the skin that's old

Will I ever touch the sun again?
Will it blind my eyes and ease the pain?
Will I ever burn my hands again? Nothing ever stays the same

See through the lies
See that nothing ever dies
Nothing dies, nothing ever dies
